

POWER TOTZ

AT VIRTUS INSTITUTE

Focused on improving your child's performance in sports as well as general bio-mechanical functions, PowerTotz is designed to be a gradual increase in complexity of training to target both beginner, and already active young children. Each phase will increase strength, speed, agility, power, endurance, and flexibility. Our program is taught in a safe environment, constantly supervised by coaches interested in improving your child's athletic and physical performance.

The primary focus on movement and balance is what sets PowerTotz apart from other programs that focus on early childhood training. MANY children lack stimulation in these important areas which can lead to delayed development. Structuring the program around games and play keeps the activities fun and exciting for everyone involved.

AGES 2 & 3
12 Sessions

Tuesdays 5:30pm to 6:00pm
Jan. 9th – Mar. 27th

AGES 4 TO 7
12 Sessions

Mondays 5:30pm to 6:15pm
Jan. 8th – Mar. 26th

Participant Name: _____ Birthday: ___/___/___ Age: _____

Address: _____ City/Zip: _____
